Dear Bonnyville Medical Clinic:

**Re: Alberta College of Family Physicians (ACFP)
Patient's Medical Home Award for Outstanding Family Practice 2019**

On behalf of the Board of Directors of the Alberta College of Family Physicians, it gives me great pleasure to announce that your practice has been selected to receive ACFP's Patient's Medical Home Award for Outstanding Family Practice. This award recognizes excellence and leadership in patient and community care while exhibiting the principles of the Patient's Medical Home.

Your leadership and attention to the model of patient-centred care and team-based care is best exemplified through the words of your nominator – Dr. Keev de Villiers:

"BMC is driven by a group of dedicated physicians and staff who have prioritized quality of care and timely access to primary care and support services for our community. BMC has implemented several programs unique to the Lakeland area that greatly enhance the patient experience and quality of care provided."

The commitment and dedication to your patients and community act as a benchmark for others to follow.

In recognition of the honour, the ACFP is pleased to cater a coffee break for your clinic for up to \$500. The ACFP will contact you to organize your break. In addition, we are pleased to provide you with an engraved Hoselton as a memento of receiving the Patient's Medical Home Award – Outstanding Family Practice Award.

The ACFP and its membership commend you for leadership in serving your community. Congratulations on receiving this prestigious award!

Sincerely,

Vishal Bhella, MD, CCFP
President, Alberta College of Family Physicians
